Our Trip to Stop in Providence, Rhode Island

Family on year-long tour of USA driving through Providence this week

PROVIDENCE — In June this year Becky and Dan Hirn of Delphos, Ohio packed up and hit the road with their two young children to see America in their RV. The Hirn family has selected Providence Sound Session and the Providence area as the next point of interest on their tour through the country.

"We read about this area in the "Rhode Island Travel Guide," said Becky Hirn. "We think the Sound Session will be a unique concert experience." The family is looking forward to a visit to Waterplace Park and the River Walk.

The Hirn family arrives in Rhode Island on Friday evening to spend Saturday in Providence before continuing their trip through Rhode Island and Connecticut. Overall, they will drive the lower 48 states visiting about one state a week. So far they have visited New York, Vermont and New Hampshire, Maine and Massachusetts. They are documenting their trip at www.ourtriptakesus.com. They are seeking additional advertising partners through the website and on the sides of their RV. See their website to follow the family through the country and learn about partnering with them.
